This information has been personalised for East Loddon in reference to the DET document of the same name.

How to access 'Learning from Home'
For parents and students

Prepare to learn from home
Here's how you can prepare for remote learning from home or another space.

Set up a learning space at home
In your home or the place you are staying, you'll need a space that you feel comfortable to focus, learn and be in.

Ideally, you'll have a computer or laptop with a camera or webcam. This is not essential, but will provide you with a better learning experience. You might need your parents or carers to help you get set up.

Do you have internet access?
Most learning at home requires the internet. If you have a weak or limited connection, please contact Steve Leed and hard copy work will be organised.

The college has set out how work will be provided in our Frequently Asked Questions document.

Consider using a mobile data connection or contacting your service provider for a temporary economical solution.

Department and school resources
Now that you have sorted out the environment, here are the tools that can be used to support your learning at home:

Accessing Office 365 (Microsoft Teams and OneNote)
Most staff will have Microsoft Teams and OneNote on their computers already. If you cannot find these programs, please let Nick Marlow or Sarah Clare know. At this stage, we are prioritising getting staff onto Microsoft Teams so we can run meetings and collaborate.

Students will access the software with their eduPass login (**username@schools.vic.gov.au**).

Office 365 online is available here: **https://www.office.com/ or through the East Loddon website> staff> Office 365**

Accessing ClickView
ClickView provides Victorian Curriculum-aligned video content. It is available here: **https://www.clickview.com.au/**

Sign in at the top of the page. Enter your email address and select **sign in with eduPass** from the drop down menu. Then enter your eduPass login details.
More login help is at: **https://www.clickview.com.au/education-victoria/**

IMPORTANT: Student Access

Students will access ClickView with their eduPass login **(username@schools.vic.gov.au)**. If a student contacts you to find out their eduPass usernames and passwords, please contact Nick Marlow or Sarah Clare.

Accessing Stile

Stile provides online science lessons with engaging content for students in years 7-10. It is available here: **https://stileapp.com/login**

You can access Stile using your @edumail (**username@edumail.vic.gov.au**).

Teachers share classcodes with students to enrol them in their class. See here for more details: **https://stileeducation.com/start**. Share your classcodes remotely using Compass, a class Team or email. Stile are supporting teachers to share content with students through webinars and through **help@stileeducation.com**.

Accessing FUSE

FUSE is a platform housing many resources mapped to the Victorian Curriculum. Access FUSE at **https://fuse.education.vic.gov.au**. FUSE content will continue to be updated over the coming weeks to assist schools to support learning at home.

Accessing Adobe Creative Cloud

For Secondary students and teachers who have Adobe Creative Cloud installed on their device, Adobe have extended the installed serial key to 31 May 2020 to ensure continuity of access away from School.

Go here for more technical support in accessing resources for learning at home.
